Summer's High Heat Index Places Marshall Center Employees at Risk

With the heat index around Marshall frequently reaching 100 degrees or higher this summer, Center employees are at a high risk of heat-related illnesses. These include heat exhaustion, heat cramps and heat stroke. Call 911 or immediately report to Marshall's Medical Center if you think you are suffering from a heat-related illness. More information about heat stress may be found at the following Web site:

NASA Exchange to Sponsor Soft Drink Sale 1-3 p.m. Wed.

The NASA Exchange will be selling Pepsi products left over from Marshall's Open House 1-3 p.m. or as long as supplies last, Wednesday at the south loading dock of Bldg. 4471. Cases of 20-ounce Pepsi, Diet Pepsi and Mountain Dew will be available for \$11 per case.

Emergency Warning System to be Tested Center-wide at 3 p.m. Thurs.

Monthly testing of the Emergency Warning System is scheduled for 3 p.m. Thursday. This is an audio test only and personnel should not evacuate. If severe weather is occurring at this time, testing will be rescheduled. Safety coordinators and monitors should notify the AB/11 Emergency Preparedness Officer at 4-5187, as soon as possible, of malfunctioning speakers.
